

Candidate Reject

Frontend Developer

PROFESSIONAL SUMMARY

Frontend developer with two years of experience building responsive web interfaces and component libraries.

EXPERIENCE

Frontend Developer - Lumen Studio - 2024 to Present

- Built React and TypeScript interfaces for marketing and account pages.
- Improved Lighthouse accessibility scores from 78 to 94.
- Worked with designers to maintain a shared component library.

Web Design Intern - Orchard Creative - 2023

- Implemented HTML and CSS landing pages from design specifications.
- Performed cross-browser visual testing.

SKILLS

React, TypeScript, JavaScript, HTML, CSS, Storybook, Figma

SELECTED PROJECT

Created a reusable form component library. No production Python, backend API design, relational database, or service operations experience is stated.
